May 7, 2013

Dear Mr. Musgrave,

I am responding to your public records request of April 30, in which you asked for "a database or listing of all reports to MassPort Public Safety at Logan Airport for suspicious packages and/or activity from January 1, 2013 to the day this request is processed."

Any such reports, to the extent any may exist, would be presumptively Sensitive Security Information ("SSI") under 49 C.F.R. Part 1520. The Authority is prohibited from disseminating SSI unless authorized to do so by the United States Transportation Security Administration ("TSA"). Further, the information as to whether there exists or does not exist such reports is also SSI.

To the extent any such reports exist, they would also be exempt from disclosure under M.G.L. c. 4 § 7(26) (a) and (n), and 49 C.F.R. Part 1520. Massport believes the dissemination of suspicious package reports will jeopardize public safety. Accordingly, your request must be denied.

You have the right to appeal this determination to the Supervisor of Public Records in the Office of the Secretary of the Commonwealth.

Sincerely,

Matthew Breilis
Director Media Relations
Massachusetts Port Authority
